

Comfort and Care for Traveling Couple

Homer and Marge Bumann were traveling from Michigan back home to Gulf Shores Alabama, and decided to spend the night in Scottsburg. Marge said, “We have a lot of family in Michigan, so we make the trip at least once a year. This was our first time stopping in Scottsburg.”

While getting settled in their hotel room, Mr. Bumann stumbled over his suitcase and injured his leg. Mr. Bumann was rushed to the Emergency Department at Scott Memorial Hospital where he was treated by Dr. John Croasdell, Medical Director of the ER. After receiving x-rays, it was determined that Mr. Bumann had broken his left Femur. Mr. Bumann explained, “After meeting the staff in the Emergency Department, we knew we wanted to stay here. Everyone was so nice, my wife and I felt confident that I would be in good hands.”

The following day, Mr. Bumann underwent a three hour surgery performed by Orthopedic Surgeon, Dr. Suresh Kasaraneni. While talking to Dr. Kasaraneni after the surgery Mrs. Bumann said, “I want to give you a big thumbs up. You did a beautiful job.”

Before continuing their journey home Mr. Bumann will spend a week receiving treatment at Frazier Rehab. “My grandson will be flying in from Michigan to help us with the 10 hour drive home,” Explained Mrs. Bumann, “I would like to say thanks to everyone at Scott Memorial Hospital. When you are traveling and something like this happens, it can be very scary. The doctors and nurses were like little angels that came to help us in our time of need.”
